- ✓ **Frontend** : React.js, TypeScript, HTML, CSS, JavaScript
- ✓ **Backend** : Firebase, REST APIs, Basic Node.js, Express, Basic PHP
- ✓ **Testing** : Jest, React Native Testing Library, Detox
- ✓ **Tools** : Git, GitHub, Postman, Figma, CodePush, VS Code, Android Studio, Xcode

## WORK EXPERIENCE

### Verge Systems — React Native Developer

Nov 2022 – Present

- Built and maintained production-level mobile apps for hiring platforms (Hireside), handling full-stack mobile development and deployment
- Collaborated with designers and product managers to build smooth workflows, optimize performance, and enhance UX
- Implemented core features like real-time notifications, job filtering, and secure login across both Android and iOS

### Highlighted Projects:

- Hireside Job Search App (Live on Play Store & App Store)
  - Developed a cross-platform job portal using React Native, Redux, and Firebase.
  - Designed modern UI/UX, implemented job filtering, secure login, and push notifications.
  - Optimized performance with React Navigation and APIs, improving startup speed by 25%.
  - [**Play Store**] (<https://play.google.com/store/apps/details?id=com.hireside>)
  - [**App Store**] (<https://apps.apple.com/pk/app/hireside-job-search/id1612426533>)
- Hireside Recruiter App (Live on Play Store & App Store)
  - Led React Native app development, integrating Redux and Firebase for employer workflows.
  - Built job posting, candidate management, deep linking, and push notifications for iOS/Android.
  - Optimized React Navigation and APIs, reducing load times and enhancing user experience.
  - [**Play Store**] (<https://play.google.com/store/apps/details?id=com.hiresideemployer>)
  - [**App Store**] (<https://apps.apple.com/pk/app/hireside-recruiter/id1625820588>)
- Safco Microfinance App (Private App)
  - Designed & built loan management flow using Firebase + secure auth.
  - Handled iterative releases based on real user feedback.
  - (Private app limited Users — no link)

### Other Experience

#### Frontend & WordPress Developer | Amzufia, Dipixels | Oct 2021 - Oct 2022

- Built and customized responsive websites using WordPress, Bootstrap, and jQuery based on Figma/Adobe XD designs.
- Converted UI mockups into fully functional, cross-browser-compatible sites.
- Handled theme customization and plugin tweaks to meet client needs.
- Ensured mobile responsiveness and fast load times across all platforms.

#### Dipixels — WordPress Developer - Oct 2021 – Dec 2021

- Developed and deployed custom WordPress websites with a focus on UI accuracy and mobile responsiveness.
- Translated design files (Figma, Adobe XD) into functional WordPress themes.
- Extended theme functionality with custom plugins and optimized for SEO and speed.
- Maintained multiple client sites and performed regular updates and fixes.
