GitHub: <https://github.com/SamadK01> | **LinkedIn:** <https://www.linkedin.com/in/abdul-samad71/>

PROFESSIONAL SUMMARY

Senior React Native Developer with 4+ years of experience building scalable mobile applications serving 50K+ users across iOS and Android platforms. Proven track record of improving app performance by 25% and delivering cross-platform solutions from concept to App Store deployment. Expertise in React Native ecosystem, Firebase backend integration, and modern mobile development practices with full-stack development capabilities.

TECHNICAL SKILLS

- ✓ **Mobile Development :** React Native, Expo, Redux Toolkit, Zustand, React Navigation, Native Modules
- ✓ **Frontend Technologies:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive Design
- ✓ **Backend & Database:** Firebase (Auth, Firestore, Functions), Node.js, Express.js, REST APIs,
- ✓ **Testing & Quality:** Jest, React Native Testing Library, Detox, Unit Testing, Integration Testing
- ✓ **Development Tools:** Git, GitHub, VS Code, Android Studio, Xcode, Postman, Figma, React Native Debugger
- ✓ **DevOps & Deployment:** App Store Connect, Google Play Console, Firebase Hosting, GitHub Actions

WORK EXPERIENCE

Verge Systems — Senior React Native Developer

Nov 2022 – Present (3+ years)

Key Achievements:

- Led development of 3 production mobile applications with 50K+ combined downloads
- Improved app startup performance by 25% through code optimization and bundle size reduction
- Implemented comprehensive state management using Redux Toolkit reducing app crashes by 40%
- Built end-to-end features including authentication, real-time notifications, and payment integration
- Collaborated with cross-functional teams of 5+ members including designers and product managers

Technical Contributions:

- Developed robust mobile architecture using React Native 0.70+ with TypeScript
- Integrated Firebase services including Authentication, Firestore, and Cloud Functions
- Implemented deep linking, push notifications, and offline data synchronization
- Built reusable component library reducing development time by 30%
- Conducted code reviews and mentored junior developers on React Native best practices

Hireside Recruiter App ★ (Live on Play Store & App Store)

Tech Stack: React Native, Redux, Firebase, Deep Linking, Push Notifications

- Employer-focused mobile application for job posting and candidate management
- Built comprehensive recruiter dashboard with candidate filtering and communication tools
- Implemented deep linking for seamless navigation from email/web to mobile app
- Developed real-time chat system between recruiters and candidates
- Achieved 40% reduction in load times through API optimization and caching strategies
- Play Store: [Download Link](#)
- App Store: [Download Link](#)

Hireside Job Search App ★ (Live on Play Store & App Store)

Tech Stack: React Native, Redux Toolkit, Firebase, TypeScript, React Navigation

- Cross-platform job portal with 25K+ downloads and 4.2★ average rating
- Built advanced job filtering system with real-time search and location-based results
- Implemented secure user authentication, profile management, and job application tracking
- Integrated push notifications for job alerts and application updates
- Optimized app performance achieving 25% faster startup time and 30% smaller bundle size
- Play Store: [Download Link](#)
- App Store: [Download Link](#)

Safco Microfinance App (Private Enterprise App)

Tech Stack: React Native, Firebase, Secure Authentication, Financial APIs

- Designed and developed loan management system for microfinance operations
- Built secure authentication system with biometric login and PIN protection
- Implemented loan calculation algorithms and repayment tracking features
- Handled iterative development based on real user feedback and compliance requirements
- Ensured data security and encryption for sensitive financial information

ADDITIONAL EXPERIENCE

Frontend & WordPress Developer | Amzufia, Dipixels

Jan 2022 - Oct 2022

- Built 15+ responsive websites using WordPress, Bootstrap, and jQuery based on Figma designs
- Converted UI mockups into pixel-perfect, cross-browser-compatible websites
- Implemented custom WordPress themes and plugins to meet specific client requirements
- Optimized website performance achieving 90+ Google PageSpeed scores
- Maintained and updated multiple client websites with regular security patches

WordPress Developer | Dipixels

Oct 2021 – Dec 2021

- Developed and deployed 8+ custom WordPress websites with focus on mobile responsiveness
- Translated design files (Figma, Adobe XD) into functional WordPress themes
- Extended theme functionality with custom plugins and optimized for SEO
- Collaborated with design team to ensure UI accuracy and brand consistency

KEY ACHIEVEMENTS

- 50K+ App Downloads: Successfully launched and maintained apps with high user engagement
- Performance Expert: Consistently improved app performance by 25-40% across projects
- Quality Focused: Reduced app crash rates from 2.1% to 0.3% through better error handling
- Team Leadership: Mentored 2+ junior developers and conducted regular code reviews
- Cross-Platform Expertise: Delivered pixel-perfect apps for both iOS and Android platforms

CERTIFICATIONS

- HackerRank React (Intermediate) - Problem Solving & Algorithm Skills
- Meta React Native Fundamentals - [Coursera Free Course Completed]
- Firebase for Mobile Development - [Google Developer Training]
- JavaScript Algorithms and Data Structures - [freeCodeCamp Certification]

EDUCATION

BS in Software Engineering | University of Sindh, Jamshoro | 2016 - 2019

LANGUAGES

Languages: English (Fluent, written and verbal), Urdu (Native Speaker)
