Profile

Experienced React Native Developer with 3+ years in building high-performance mobile applications for iOS and Android. Proficient in modern app architecture, API integration, and performance optimization, with a strong focus on delivering seamless user experiences. Adept at collaborating in agile teams to develop scalable and maintainable solutions.

Work Experience

Verge Systems

Software Engineer   Nov 2022 – Present

Hireside Apps (Current):

Developing and maintaining two mobile applications for the Hire side platform:

- **HireSide Job Search**: A candidate-focused app for job discovery, application submission, and tracking the hiring process. both [Google Play Store](#) and [Apple App Store](#)

- **HireSide Recruiter:** An employer-focused app enabling companies to post job openings, manage candidate workflows, and streamline the hiring process. both [Google Play Store](#) and [Apple App Store](#)

- Optimized app performance and implemented cross-platform features for seamless functionality on both Android and iOS devices.

- Collaborated with UI/UX designers and product stakeholders to create intuitive interfaces and scalable app architecture.

Safco Microfinance App:

- Designed and developed the Safco Microfinance mobile application, a digital solution for loan management, allowing users to apply for loans, track approvals, and manage accounts.

- Conducted performance tuning and implemented feedback-driven updates to enhance user satisfaction.

- Performed rigorous testing, debugging, and performance analysis to ensure app stability and reliability.

- Monitored app performance post-deployment and integrated user feedback to deliver iterative improvements.

Amzufia
